Secret Space Programs

Do you know that earth humanity is already interacting in the galactic community? It is just that the cabal has kept it secret to keep the public from reaping the benefits of collaborating with positive galactics.

Secret Space Programs were devised by the cabal to create a buffer between the Galactic Confederation and the surface population. Normally when civilizations achieve space travel, the surface population is peacefully and cooperatively integrated into the galactic community and Galactic Confederation:

Unfortunately, the cabal does not want to loose their loosh farm (see my "A Little About Me" article), so they have kept space travel and overunity/free-energy in the private domain (at the expense of the public through BlackRock and taxes) to try to delay the liberation of this planet:

"Dark Forces are sabotaging positive initiatives to break through the Quarantine and commercial space travel can not begin, even though technology to make it happen is here in the public domain for 70 years already"

<https://2012portal.blogspot.com/2018/11/delta-option.html>

"In the beginning of the 20th century, the positive Pleiadians from Aldebaran have decided to assist humanity in achieving spaceflight and overunity in order to help them set free from Chimera and Cabal control.

...

"In 2012, the Light Forces have cleared all those secrets space programs, along with all deep underground military bases such as Dulce, Area 51 and Pine Gap. Most of the top brass in these space programs was taken to the Galactic Central Sun as they have committed grave crimes and were unwilling to accept the Light. Most of the supersoldiers participating in these programs were good people that genuinely believed they are defending the Earth against the alien threat. The vast majority of them have joined the positive Alliance fleet in this Solar System and are now assisting in MOSS."

<https://2012portal.blogspot.com/2015/05/free-colonies-update-and-videos.html>

The cabal and negative alien hierarchy have programmed supersoldiers to believe there is a negative alien (AI God) external threat, when in reality, the most powerful negative alien species have been here, holding this planet hostage (*Jupiter Ascending*). All external negative alien threats have been coordinated by the negative aliens on this planet. While it is still important to be on guard against that "external" threat, attention should be turned to the direct infiltration of this world (corteum/labyrinth-group, archons/jesuit-order, see my "Intro" article) and the Lurker:

<https://2012portal.blogspot.com/2025/08/1221-ascension-portal-activation-report.html>

"The whole secret space program was named Solar Warden and top supersoldiers were accepted into the program and brainwashed with the idea that they are defending Earth from the negative aliens. Some UN diplomats knew about the existence of the Solar Warden and they naively believed it to be a global program for Earth defense against an alien threat. In reality, the purpose of the secret space program was to build joint human/Draco infrastructure throughout the Solar System for the Archon invasion which happened in 1996"

...

"The Light forces have infiltrated the Solar Warden space program in many ways. Eisenhower, cornered by the Cabal and forced to team up with the negative aliens, formed some secret cells inside the Solar Warden program which were working for the Light.

"Also, the Organization (forerunner of the Resistance Movement) had secret teams infiltrated into the Solar Warden program. The Organization was also cooperating with positive Andromedans who were well aware of the situation in this Solar System."

"Compared to what? The idea that you're the only intelligent species, on the only inhabitable planet, in a universe so full of planets that you don't even have a number to describe how many there are."

—Caine Wise, *Jupiter Ascending*

"-You can't just blow up a bunch of buildings and get away with it.

+Those buildings will be rebuilt by tonight.

-That's impossible.

+Take a look.

-Holy crap. But a bunch of people saw what happened. They can't cover that up.

+You have a picture of a Keeper on your phone you can't remember taking, can you? They blanked you. Short-term stuff is easy. They won't get everybody, but no one believes the ones that slip through the cracks.

-Oh, my God. Why is this happening to me?

+I asked Titus that question before I took this job. All he'd tell me is it was personal.

-This is ridiculous. I have never even met this Titus... What's his name?
+Abraxas."

After writing this article, I just read Cobra's latest article and watched the TruthEarthOrg video, which was a great synchronicity:

Part 2: Superpowers

5 senses: see, hear, touch, taste, smell

6th sense: intuition

—————>

- space remote-viewing
- time remote-viewing
- dimensional travel

- bio-sonar —> telepathy
- telekinesis
- teleportation

- strength-speed-fly-invulnerability
- energy/matter manifestation/transformation
- energetic/biological invisibility

—————>

7th sense: precise, interactive space-time travel

While there has been necessity in genetic engineering (supersoldiers) in the fight against the dark, ultimately real superpowers will only come through organic/spiritual transformation ordained by God:

<https://www.youtube.com/watch?v=F020aNi0wS0>

https://www.youtube.com/watch?v=-j_aGdMinIM

<https://en.wikipedia.org/wiki/Transfigurations>

<https://www.youtube.com/watch?v=E3-CpzZJl8w>

https://www.youtube.com/watch?v=s31Sk3LoH_M

There is too much focus on genetics and not enough focus on the soul. While genetics are important, you have to understand that the soul precedes genetics.

You are not your body, you are a soul who has temporarily incarnated in a human vehicle. The human instrument (genetics) is only a temporary vehicle (reincarnation, changing clothes) for the entity (soul/ Higher-Self). You can however ascend and take your genetics with you if you are righteous:

<https://sacred-texts.com/eso/um/index.htm>

In the end, only the righteous will inherit the best genetics, while the unrighteous will lose everything (genetics, wealth, status, tech). This is perfectly described in the theological works of Swedenborg—it is your inner nature that precedes your outer nature:

<https://swedenborg.com/emanuel-swedenborg/writings/short-excerpts-and-downloads/inner-self-outer-self/>

<https://swedenborg.com/emanuel-swedenborg/writings/>

"All my experience in heaven bears witness to the fact that the divine nature that comes from the Lord, affects angels, and constitutes heaven, is love. In fact, all the people there are forms of love and thoughtfulness. They look indescribably beautiful. Love radiates from their faces, from their speech, from every detail of their behavior"

—§17, *Heaven and Hell* by Emanuel Swedenborg

"There is no way to describe briefly all the ways these forms look, since no one is just like any other. There is only a general likeness among people who are absorbed in similar evils and are therefore in the same hellish community, a similarity that acts like a common background that gives the individual faces a kind of overall resemblance. In general, their faces are frightful, as lifeless as corpses. Some of their faces are black, some like little torches, some pimply, with huge ulcerated sores. In many cases there is no visible face, only something hairy or bony in its place, while with others only the teeth show. Their bodies are equally misshapen, and their speech seems to embody wrath or hatred or vengeance, since all their articulation comes from their false perception and all the tone comes from their evil intent. In a word, they are all images of their hell."

—§553, *Heaven and Hell* by Emanuel Swedenborg

The worthy can "make" themselves "wings" with the WingMakers:

"This frequency of the tone-vibration of equality is only heard with the seventh sense by the entity who is enveloped in a human instrument. The seventh sense can be developed by the time capsules' and will lead certain entities to their innermost or core expression. The core expression is what activates the seventh sense. Thus, before one can hear the tone-vibration of equality, they must gain access to their core expression. There is encoded in each of the time capsules, a system of languages that can lead the individual to their core expression. It is hidden because it is so powerful. And we will only lead the worthy to this power."

...

"It is the beacon of the Source Vibration gathering itself into the form of language in order to usher you to the place from which you can experience the formless tone of equality."

*I apologize if the constant updates to my articles is distracting. I am planning to leave everything be when the time is right. I am not going back on what I have said (you can download my articles and hold me to account), but rather enhancing my portrayal of information. The cabal are using advanced psychotronic/information warfare with black tech, and it is a way to effectively combat that (game theory). I view my articles as being similar to Lisa Renee's Ascension Glossary—an information resource that is being gradually enhanced. I also encourage my readers to download my pdfs and other important online information (whistleblowers). Information is power, and truth will prevail. I think it is smart for lightworker-stars seeds to have a personal library (computer files, thumb drives, physical library) of information exposing the cabal and also information that inspires our public Utopia future.

*There are only two spelling errors in the WingMakers philosophy "Nuturence" and "nuturance" and this was done deliberately by Anne as information strategy when she released the most highly classified information on the planet into the public domain. The spelling mistake makes you doubt, right? The whole challenge of seeking truth is in discernment, and the WingMakers also extensively discuss the "language of limitation", and people becoming so obsessed with words instead of meaning. Are there any other spelling errors? Not from what I have seen—and the rest of the language is impeccable.

Words change all the time, that is why translations of latin or greek are updated from past translations to modern translations, and some translations of the *Tao Te Ching* to english sound different than others:

As Swedenborg discusses, hell thrives on argumentative debate, rather than constructive debate or finding solutions and truth.

What matters is intention and meaning (wordless telepathy, feeling).
